

com.mysql.jdbc.Reflective
StatementInterceptorAdapter.execute
TopLevelOnly

```
graph LR; A["com.mysql.jdbc.ReflectiveStatementInterceptorAdapter.executeTopLevelOnly"] --> B["com.mysql.jdbc.StatementInterceptor.executeTopLevelOnly"]
```

The diagram illustrates a method call. On the left, a grey rectangular box contains the text 'com.mysql.jdbc.ReflectiveStatementInterceptorAdapter.executeTopLevelOnly'. A blue arrow points from the right side of this box to the right side of a white rectangular box on the right. The white box contains the text 'com.mysql.jdbc.StatementInterceptor.executeTopLevelOnly'.
