

com.mysql.jdbc.MultiHost
MySQLConnection.setIgnoreNon
TxTables

```
graph LR; A["com.mysql.jdbc.MultiHost  
MySQLConnection.setIgnoreNon  
TxTables"] --> B["com.mysql.jdbc.Connection  
Properties.setIgnoreNonTxTables"]
```

A diagram showing a call from the `com.mysql.jdbc.MultiHost` class to the `com.mysql.jdbc.Connection Properties` class. The call is represented by a blue arrow pointing from the left box to the right box. The left box is shaded gray and contains the text `com.mysql.jdbc.MultiHost`, `MySQLConnection.setIgnoreNon`, and `TxTables`. The right box is white and contains the text `com.mysql.jdbc.Connection` and `Properties.setIgnoreNonTxTables`.
