

com.mysql.jdbc.MultiHost
MySQLConnection.setCacheServer
Configuration

```
graph LR; A["com.mysql.jdbc.MultiHost  
MySQLConnection.setCacheServer  
Configuration"] --> B["com.mysql.jdbc.Connection  
Properties.setCacheServerConfiguration"]
```

A diagram showing a mapping from a class in the `com.mysql.jdbc` package to a class in the `com.mysql.jdbc` package. The left box, which is shaded gray, contains the text `com.mysql.jdbc.MultiHost MySQLConnection.setCacheServer Configuration`. A blue arrow points from the right side of this box to the right box. The right box is white and contains the text `com.mysql.jdbc.Connection Properties.setCacheServerConfiguration`.

com.mysql.jdbc.Connection
Properties.setCacheServerConfiguration
