

com.mysql.jdbc.log.Log

```
classDiagram
    class Log["com.mysql.jdbc.log.Log"]
    class StandardLogger["com.mysql.jdbc.log.Standard Logger"]
    StandardLogger --|> Log
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'com.mysql.jdbc.log.Standard Logger'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'com.mysql.jdbc.log.Log'. This indicates that 'Standard Logger' inherits from 'Log'.
